The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: CP25-528-000, Eastern Gas Transmission & Storage, Inc. Appalachian Reliability Project

Dear Secretary Reese,

I am writing to express my support for the Eastern Gas Transmission and Storage proposal, known as the Appalachian Reliability Project. Utilization of the abundant amount of natural gas in Pennsylvania and neighboring states is extremely important work to grow our economy, and create opportunities for the residents that I serve.

Eastern Gas Transmission and Storage seeks to add energy capacity to the Appalachian region by upgrading strategic stations and extending targeted pipeline. The project will create 500,000 dekatherms/day of incremental firm transportation capacity. The Appalachian Reliability Project will increase current EGTS infrastructure and provide increased energy accessibly to customers across their service area.

This project works to adapt to the needs of an exciting and dynamic energy industry. Eastern Gas Transmission has a strong track record on reliability and capacity of the natural gas industry. My Senatorial District is home to some of the most productive natural gas wells in the world, and I am proud to advocate for the safe use of the abundant gas we have in Pennsylvania.

I respectfully ask the Federal, Energy Regulatory Community for a favorable vote to move this project further. I am grateful for your time and attention to this request.

Sincerely

Camera Bartolotta
46th Senatorial District
