Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: CP25-528-000, Eastern Gas Transmission & Storage, Inc. Appalachian Reliability Project

Dear Ms. Reese,

We are writing to express our enthusiastic support for Eastern Gas Transmission and Storage, Inc. (EGTS), a BHE GT&S company, and their request for a certificate of public convenience and necessity by the Federal Energy Regulatory Commission (FERC) for their proposed Appalachian Reliability Project.

EGTS proposed the Appalachian Reliability Project (ARP) to meet the growing energy needs of customers across the region. ARP will leverage existing EGTS infrastructure while increasing the capacity on its system through pipeline additions and station upgrades. This will create 550,000 dekatherms/day of incremental firm transportation capacity from a new receipt point in Armstrong County, PA for deliveries to Texas Eastern Pipeline in Westmoreland County, PA and the Rockies Express Pipeline (REX) in Monroe County, OH.

EGTS is committed to safety and environmental respect for the benefit of communities and its employees. EGTS maintains operating policies and procedures that adhere to United States Department of Transportation (USDOT) safety requirements for inspections, testing, operations, preventive maintenance, repairs, vigilant patrols of facilities and more.

We believe that EGTS is uniquely positioned to execute this project with excellence. Their expertise, compassion, and dedication to these issues are unparalleled.

We are proud to support EGTS and their efforts to make its community a better place. We hope that you will join us in supporting this important project.
